

How to make Audacity work with ALSA

How to make Audacity work with ALSA

If you want to work with the audio editing software Audacity, and you get an error starting Audacity, you can try the following:

start audacity with the following command:

```
>aoss audacity
```

This will start audacity with the alsa osscompatibility layer.

or

try selecting in Preferences ALSA Default as the sound device

How to make MP3 support working

```
sudo ln -s /usr/lib/libmp3lame.so.0 /usr/lib/libmp3lame.so
```
