

# Database dump & restore

make database dump:

```
mysqldump -u root -p --all-databases > pvdm.sql  
mysqldump -u root -p wikidb > pvdm.sql
```

restore the dump:

```
#mysql -u root -p  
mysql> create database xyz;  
mysql> quit;  
#mysql -u root -p [dbname] < pvdm.sql
```

delete database:

```
#mysql -u root -p  
mysql> drop database xyz;
```
