

How to send email from command line in fixed font

To send email that is in fixed font you can use:

```
# (echo "Subject: bla"; echo "MIME-Version: 1.0"; echo "Content-Type: text/html"; echo  
"Content-Disposition: inline"; echo '<html><body><pre>The code  
element<SLASHpre></body></html>') | sendmail joop@hotmail.com
```

Mind the /pre here.
