

Vlc tips & tricks

Startup options:

```
--start-time=<integer> Start time  
The stream will start at this position (in seconds).  
--stop-time=<integer> Stop time  
The stream will stop at this position (in seconds).  
--run-time=<integer> Run time  
The stream will run this duration (in seconds).
```

get around the problem by adding `vlc://pause:9999` entries to playlist after the titles.
