

Connect MythTV and XBMC

XBMCMythTV script:

How to make your XBMC connect to the MythTV MySQL database:

Method 1)

it doesn't seem to work if you use the PHPmyadmin interface, so do it just hardcore from the CLI:

```
UPDATE mysql.user  
SET password=OLD_PASSWORD('mythtv')  
WHERE user='mythtv'  
AND host='someip';
```

Method 2)

This allows the xbox to connect remotely to the server running the mythtv backend. Run it on the backend in mysql command line.

```
GRANT ALL PRIVILEGES ON *.* TO root@"192.168.1.60" identified by "MyPassword";
```

The IP is that of the XBOX.

Remember that XBMC does not support the DB-connection interface version of the latest MythTV versions, yet.....
