

KDE4.4 issues openSUSE 11.2

error: nepomukservice not registered at DBus

change the file `.kde4/share/config/nepomukserverrc` to:

```
[Basic Settings]
Configured repositories=main
Start Nepomuk=true

[Service-nepomukmigration1]
autostart=false

[Service-nepomukstrigiservice]
autostart=true

[main Settings]
Maximum memory=200
Storage Dir[$e]=$HOME/.kde4/share/apps/nepomuk/repository/main/
//Used Soprano Backend=redland
Used Soprano Backend=''virtuosobackend''
index version=2
rebuilt index for type indexing=true
```
